E

CUIR	Cuir vachette fleur corrigée pigmentée Pigmented finish cow leather Cuero vacuno acabado pigmentado	Epaisseur 1 à 1,1mm	Nos peaux sont soigneusement choisies parmi des cuirs européens de premier choix. Le cuir est un produit de valeur dont l'aspect naturel garantit le caractère noble. Volontairement les marques de la peau de l'animal n'ont pas été entièrement dissimulées par le pigment car elles contribuent à la caractéristique naturelle du produit. Le choix du cuir implique aussi l'acceptation de marques de la nature (rides de collet, égratignures, piqûres d'insecte...) d'une matière procurant plaisir de contact, solidité et confort pendant longtemps. Our skins are carefully selected from European high quality leathers. Leather is a valuable product which natural appearance guarantees noble character. Voluntarily blemishes of the skin of the animal have not been totally concealed by the pigment as they assure the natural characteristic of the product. The choice of leather also implies the acceptance of nature's blemishes (collar lines, scratches, insect bites ...) of a durable material providing pleasure of touch and comfort for a long time. Las pieles que utilizamos han sido seleccionadas entre las pieles europeas de primeras marcas. El cuero es un producto de valor cuyo aspecto natural garantiza el carácter noble. Voluntariamente las imperfecciones de la piel del animal no se han quitado del todo con el pigmentado porque son características naturales del producto. La elección de pieles implica también la aceptación de marcas (arrugas de cuello, arañazos, picaduras de insecto...) de una materia agradable al tacto y durable en el tiempo.			EN 1021-1 Cigarette EN 1021-2 Allumette	Nettoyage avec une éponge humide légèrement savonneuse. Sécher à la peau de chamois. Cire d'abeille selon désir. To clean with a humid sponge lightly soaping. Dry with shammy leather. Wax can be used. Limpieza con una esponja humeda ligeramente enjabonada. Secar la piel. Encerar si lo estima necesario.	L'eau savonneuse emporte les micro-particules du virus. N'appliquez aucun produit contenant de l'alcool. The soapy water carries away the microparticles of the virus. Do not apply any product that contains alcohol. El agua jabonosa se lleva las micropartículas del virus. No aplicar ningún producto que contenga alcohol.

TRAITEMENT ANTI-TACHE

Sur demande, nous pouvons effectuer sur nos sièges un traitement anti-tache. Supplément: voir tarif. Ce traitement est garanti 3 ans.

IMPORTANT: Des différences de nuances peuvent intervenir, tout particulièrement lors de livraisons espacées dans le temps. En aucun cas nous ne pouvons être tenus responsables, sauf si nous nous sommes formellement engagés au préalable.

ANTISTAIN TREATMENT

On call, we can treat our chairs antistain. See price list for supplement. This treatment is 3 years guaranteed.

IMPORTANT: Differences can be noted in tints, particularly for far distant deliveries. In any case, we cannot be considered as responsible for these ones, unless we committed ourselves previously.

TRATAMIENTO ANTI-MANCHAS

Podemos dar un tratamiento anti-manchas a las sillas bajo pedido. Dicho tratamiento está garantizado 3 años. Puede consultar precios en nuestra tarifa.

IMPORTANTE: Puede haber ligeras diferencias de tonos sobre pedidos realizados con mucha antelación. SOKOA no se hace responsable salvo previo común acuerdo.

NETTOYAGE TISSUS

Il est nécessaire de procéder à un nettoyage régulier (tous les 2 mois minimum) du revêtement des sièges avec un aspirateur pour enlever la poussière et éviter l'incrustation de particules diverses (sable ou autres) pouvant être la source d'une dégradation et abrasion anormale du tissu.

Encre - Enlevez le plus possible avec du papier absorbant. Procédez du bord vers le centre. Nettoyez avec de l'alcool à 90° et lavez avec de l'eau additionnée d'un détergent biologique neutre à 5%.

Crayons à bille - Nettoyez à l'alcool à 90°.

Vernis à ongles - Tamponnez avec du dissolvant.

Peinture à l'eau - Tamponnez avec de l'eau froide.

Peinture à l'huile - Nettoyez avec de la térébenthine et tamponnez avec de l'eau additionnée de détergent neutre.

Graisse, huile, sauces - Saupoudrez la tache de talc et laissez agir.

Enlevez le talc à l'aide d'une brosse et tamponnez légèrement avec un chiffon imbibé d'essence de térébenthine.

Rouge à lèvres - Tamponnez avec l'essence de térébenthine.

Cirage, cire d'entretien - Tamponnez légèrement avec un chiffon humecté d'essence de térébenthine.

Confiture, crème, fruits - Enlevez le plus possible à l'aide d'un instrument plat, puis tamponnez avec de l'eau tiède.

Chocolat - Tamponnez avec un chiffon humecté d'eau tiède.

Sang - Lavez avec de l'eau contenant un détergent neutre.

Chewing gum - Refroidissez à l'aide d'un sac en plastique rempli de glaçons.

Vin, champagne, alcool - Enlevez le plus possible avec du papier absorbant, puis tamponnez avec de l'eau additionnée d'un détergent pour linge ou shampoing dilué selon recommandation du fabricant.

Café, thé et lait - Enlevez le plus possible avec du papier absorbant, puis tamponnez avec de l'eau additionnée d'un détergent biologique neutre à 5%.

STAIN CLEANING

There is a need for regular cleaning (every 2 months minimum) the upholstery with a vacuum cleaner to remove dust and prevent the embedding of various particles (sand or other) that may be the source of degradation and abrasion abnormal tissue.

Ink - To be removed first with absorbent paper.

Proceed from the border to the centre. To be cleaned up with alcohol (90°) and washed with water adding a neutral biological detergent.

Pencil - To be cleaned with 90° alcohol.

Oil-painting - Clean with turpentine and tampon using water and a neutral detergent.

Water painting - Tampon using cold water.

Nail-varnish - Tampon using solvent.

Oils, grease and sauces - Stain to be powdered with talc. Wait for a few minutes. Remove talc with a brush and slightly press with a rag using turpentine.

Shoe-cream - To be lightly tamponed using turpentine.

Lip-stick - Tampon using turpentine..

Chocolate - Tampon with rag using tepid water.

Blood - To be cleaned using water and a neutral detergent.

Chewing gum - To be cooled using a plastic bag full of ice.

Wine, Champagne, alcohol - To be removed as much as possible using absorbent paper.

Then tampon using a linen detergent or diluted shampoo following the manufacturer's instructions.

Coffee, tea and milk - To be removed with absorbent paper. Then tampon using water along with a neutral biological detergent.

LIMPIEZA DE TAPIZADOS

Es necesario proceder a una limpieza regular de la tapicería al menos cada 2 meses con un aspirador para eliminar el polvo depositado y evitar la incrustación de ciertas partículas, como arena u otros, pudiendo ser la causa de una degradación y abrasión anormal del tejido.

Tinta - Absorber lo que se pueda con papel secante, comenzando por los bordes para ir hacia el centro. Limpiar con alcohol a 90° y aclarar con agua y detergente neutro al 5% de concentración.

Bolígrafo - Limpiar con alcohol 90°.

Pintura de agua - Limpiar con agua fría.

Pintura de aceite - Limpiar con aguarrás y acabar con agua y detergente neutro.

Barniz para uñas - Limpiar con disolvente.

Grasas, aceites, salsas - Espolvorear la mancha con polvos talco y dejar algún tiempo. Retirar el talco con un cepillo y golpear ligeramente con una tela empapada en disolvente.

Betún, cera - Golpear suave y repetidamente con una tela humedecida en aguarrás.

Barra de labios - Golpear ligeramente con aguarrás.

Mermelada, crema, frutas - Retirar con una espátula, luego limpiar con agua templada.

Chocolate - Golpear ligeramente con tela humedificada en agua templada.

Sangre - Limpiar con detergente neutro diluido en agua.

Chicle - Enfriar con una bolsa llena de hielo y retirar el chicle.

Vino, cava, alcohol - Absorber con papel secante, luego con solución de agua y detergente para ropa o champú diluido según instrucciones del fabricante.

Café, té, leche - Absorber con papel secante y golpear repetida y suavemente con agua y detergente neutro al 5%.
